510K SUMMARY

October 16, 1996

TRADE NAME: INSTANT COLD PACK
COMMON NAME: INSTANT COLD PACK
CLASSIFICATION NAME: HOT OR COLD
DISPOSABLE PACK 890.5710

Per Section 807.92(a)(3)(5), equivalency is being claimed on ACE Brand Instant Cold Pack, 3M and Jack Frost. The device provides instant cold treatment used for first aid purposes to reduce minor local pain, swelling and discomfort.

Our contact is Victoria M. Phillips at (800) 833-7678.

The Kick Ice pack consists of a bag containing Ammonium Nitrate and a liquid bubble bag containing water. The Ammonium Nitrate in the water produces a chemical reaction- When pressure is applied to the inner bubble through the outer bag the inner bubble of water opens up mixing it with the Ammonium Nitrate thereby producing cold.

The material for the bag will consist of either polyester, or laminated polyethylene.
